### Witness Promises To Tell Of Radar Spy Ring

#### Mystery Man Says He Knew Rosenberg Well

By Arthur Everett

New York (AP)—A mystery witness broke down dramatically before Senate probes yesterday, reportedly confessed lying and promised to "tell all" about a Ft. Monmouth, N. J., radar spy ring.

"The witness talked about members of the Rosenberg spy ring and said he knew Rosenberg very well," said Sen. McCarthy (R-Wis.) later.

The senator has described atom spy Julius Rosenberg as mastermind of a spy ring at Ft. Monmouth, the Army Signal Corps headquarters of America's top secret radar defense against atomic attack.

Rosenberg died in the electric chair last June 19 for atomic espionage, but McCarthy said the ring may still be active.

McCarthy did not identify the witness "in the protective custody of this committee," the senator told newsmen, "and I wish you would not, if you know his name, publish it, because he is afraid of his own personal safety. In fact his life and the safety of his family."

Stressing the importance he places on the testimony, McCarthy said he is sending a transcript to the FBI, which originally brought Rosenberg to justice.

This air of mystery and tension, the pale and shaken attitude of the witness built up an impression that a major break in the spy probe may be near.

The witness was a man of medium height, probably in his 40s. He wore glasses.

He was escorted from the closed hearing room after he suffered a physical breakdown of some undisclosed nature. A doctor and a nurse were brought to him. Later he was able to return to the hearing. However, while other principals went out to lunch, it was brought in to him.

McCarthy's Senate permanent investigations subcommittee is looking into possible espionage at Ft. Monmouth, where 10 civilian employees reportedly have been suspended in recent days for security reasons.

The witness was reported by McCarthy as at first denying any knowledge of Communism or espionage at Ft. Monmouth.

"That was directly contradictory to any evidence we have had here under oath," the senator told newsmen, as he briefed them on what went on in the closed hearing room.

McCarthy said the witness was put under vigorous questioning to the point where he broke down.

"He changed his mind," the senator reported, "said he was lying and wanted to tell the truth."

In a week of closed hearings here, McCarthy has been exploring the possibility that a deadly spy ring stole top secret radar data from Ft. Monmouth and relayed it into Communist hands.

#### Bullet Passes Through Body; Girl Only Hurt

Corning, N. Y. (AP)—Six-year-old Elaine Erway sat up in a hospital bed yesterday to have her hair combed only four hours after a 22-caliber rifle bullet had passed through her body.

Deputy Sheriff Lawrence Nichols of Steuben County said he considered the girl's survival "one in a million."

Nichols said Elaine and Richard Martin, 5, were playing in a barn near their homes outside the city during the noon recess from school. Richard climbed up in the hay mow, Nichols said, found a rifle, playfully pointed it down at Elaine and pulled the trigger.

The bullet entered at the base of the girl's neck on the right side and passed out below her left shoulder.

#### Oil From Shale

New York (AP)—Sinclair Research Laboratories, Inc., announced yesterday that for the first time crude shale oil has been produced from shale beds in Colorado by the use of controlled underground combustion techniques.

John Wesley Wable

#### Wable Pleads Innocent To Pike Slayings

Greensburg (AP)—A few hours after police said he wrote a statement implicating himself in the brutal slayings of two sleeping truck drivers on the Pennsylvania Turnpike, a slender, sullen native of Pennsylvania's mountains quietly pleaded innocent last night to formal murder charges.

Skeptical police continued to grill John Wesley Wable about the slayings which created a reign of terror on the famed toll road last July. They say they doubt his story that someone else was the triggerman.

Wable was placed in jail under close guard. His case now will be submitted to the Westmoreland County grand jury next month. If indicted, his trial would follow quickly, officials indicated.

Before the brief arraignment, State Police Capt. Jackson Dodson said Wable signed a 14-page statement implicating himself in the killings but denying he was the triggerman.

#### Grand Jury To Determine Perjury Case

Washington (AP)—Atty. Gen. Brownell said yesterday a federal grand jury will seek to determine whether Warren L. Stephenson, a Republican who once had a White House pass, committed perjury in a Congressional "4 percent" inquiry.

Brownell couched the announcement with a new warning against any revival of the "influence" racket which flourished in the nation's capital in recent years.

"This administration will not tolerate influence peddling or any other form of corruption," Brownell said in a statement to newsmen.

"You will recall that President Eisenhower on taking office said there would be no room for influence peddling in this administration and that anyone who attempted it would be prosecuted to the full limit of the law."

Actually, there is nothing illegal about attempts to peddle influence for a fee—either the "5 per cent" deals exposed with some frequency during the Truman administration or the bargain-rate "4 per cent" variety brought to light in the Stephenson case.

#### 180 New-Born Babies To Claim \$71,000 In Stock As GE Loses Tussle With Stork

New York (AP)—The General Electric Co. was still losing its tussle with the stork yesterday. It had 180 new-born stockholders ready to claim some \$71,000 of its stock.

The company had announced that every baby born Thursday, on the company's 75th anniversary, to an employee or an employee's dependent would receive five shares of GE stock.

The stock closed Thursday at 78 1/2, meaning shares worth \$394.48 for each baby at a total cost of some \$71,000 (so far) for the company.

A General Electric spokesman said yesterday the results from the West Coast were still coming in. Of the total number so far

#### Group Aims At Easing Traffic Flow

A special committee representing groups and organizations which have already expressed themselves on a proposed by-pass of Stroudsburg last night completed arrangements for a Harrisburg conference with Secretary of Highways E. L. Schmidt on Oct. 27.

Jack Kerlin, representing Stroudsburg merchants, arranged a dinner meeting of the group last night at Wyckoff's tearoom.

R. LeRoy Dengler, president of Pocono Mountains Automobile Club obtained the appointment with Mr. Schmidt.

Principal aims of the group are these:

One—Have the highway department schedule a Stroudsburg by-pass project for prosecution in the 1954 highway program.

Two—Obtain agreement that surveys and engineering on such a project will be "immediate."

Three—Endeavor to have the department give the same consideration to handling of heavy flow of traffic from Route 209 into the region.

Four—Seek highway department assurance that Rt. 402 will be extended from Silver Lake (near Minisink Hills) to connect with the new Water Gap bridge route.

Five—Present the secretary of highways with a proposed plan for the by-pass on which all groups have agreed.

Gerald P. O'Neill conferred with the group before the meeting got under way. A previous appointment prevented Mr. O'Neill from attending the entire meeting.

In agreement on methods, purposes were these and the groups they represented:

Jack Kerlin, Stroudsburg merchants; Dale H. Learn, Chamber of Commerce; Jack Shinn, Vacation Bureau; Mr. Dengler, Automobile Club; H. G. Heller, editor of The Daily Record; Edward C. Hess, Borough of Stroudsburg; Fred Rhodes, of the South Stroudsburg Association.

Joining with the conference were Sen. M. F. Crowe, Rep. John S. Shotwell, B. K. Williams. They will accompany the group on the trip to Harrisburg.

Mr. Hess, Stroudsburg engineer, presented a map showing proposed by-pass plans for Stroudsburg.

East Stroudsburg council was invited to send a representative. None was present. However, Mr. Kerlin will re-contact borough officials and ask them to be represented since the borough council expressed itself some time ago regarding by-passes and traffic.

#### First Letter To Santa Arrives

International Falls, Minn. (AP)—Postmaster Ray Sullivan mopped his brow in record 81-degree heat yesterday as he intercepted the first of an annual flood of letters received at this northern border community. The message was addressed to "Santa Claus—North Pole."

International Falls, on the Canadian border, usually is sparking the entry of winter into Minnesota at this time of year.

#### Family Spends Many Anxious Moments Until Learning Of Fireman's Safety On Leyte

Disaster hit at the heart of an East Stroudsburg home last night. It carried in its wake a horror-filled vigil for the family of Fireman Charles Lee McDonald.

McDonald was a regular crew member of the explosion-wrecked aircraft carrier USS Leyte. The Leyte blew up in Boston harbor at 3:15 p. m. yesterday.

McDonald's wife, Mrs. Mary Alice McDonald, lives at 551 N. Courtland St., East Stroudsburg, with her parents, Mr. and Mrs. David Jones.

She—and her parents—first heard of the explosion on newscasts early last night.

Initial radio reports said only that a number of crewmen had been killed; many others wounded.

Mrs. McDonald had one slight ray of hope. A letter received earlier this week from Charles had informed her that he would be coming home sometime Friday.

The 21-year-old man told his wife he "had a ride" as far as Easton; that he would come on to East Stroudsburg from there.

McDonald's letter did not say what time he would leave the ship. His wife had no way of knowing whether he had been off duty when the explosion occurred.

Little by little reports began to come in from Boston. With each

press report, the toll of dead and wounded rose.

At 9:30 p. m., the Associated Press reported "at least 30" had been killed and "40 others injured."

Identification of bodies on board the ship was greatly hampered, the report said, by the charred condition of the remains.

This difficulty prevented notification of next of kin immediately, the report continued.

It was the worst peacetime naval

Jack Lewis, son of Bangor Chief of Police and Mrs. Glenwood Lewis, was a crewman on the USS Leyte which exploded yesterday in Boston Navy Yard.

Lewis was not injured in the blast, a phone call to his family said last night.

explosion disaster in 29 years, dispatches said.

The minutes crept slowly by. At 9:50 p. m., Mrs. McDonald had still received no word from official sources.

It was the second time within a year that Fireman McDonald had been on board a tragedy-marked ship.

Last May he was a crewman on the USS Bennington when that ship exploded in a Cuban port.

He transferred to the USS Leyte five months ago.

At 10 p. m. an answer had come to the question haunting Mrs. McDonald and her family.

Moving slowly and painstakingly, Navy disaster workmen had not yet succeeded in learning the fate of Fireman Charles Lee McDonald.

Pending notification of next of kin, the Navy said, "no official list of victims would be released until 9 a. m. Saturday (today)."

The balance wheel of time rocked heavily between life and suspicions of death over Mrs. McDonald and her family.

Then—like an alarm bell—the telephone in the Jones home rang. It was 10:39.

The voice of the long distance operator said there was a call from Boston, Mass.

Then a male voice said he was calling about "Mae."

Everything was all right, the man continued, identifying himself as a "buddy of Mae's on the ship." Mae was okay.

But he was still in the Navy yard, helping to fight the fire which still raged on, nearly nine hours after the initial explosion.

There's nothing wrong with him (Mae) at all, the voice went on. "Except a black face from the smoke and the flame."

#### McCarthy Cleared Of Two Charges, Faces Tax Probe

Washington (AP)—Atty. Gen. Brownell yesterday gave Sen. McCarthy (R-Wis.) a clean bill of health on questions of personal finances and possible election law violation, but said the government is still investigating McCarthy's income taxes.

Brownell also cleared former Sen. William Benton (D-Conn.), whom McCarthy had accused of campaign fund irregularities.

#### Allied Troops May Be Held In Trieste

By Arthur Gavshon

London (AP)—The Western Big Three ministers agreed last night to stand firm on a British-American decision to transfer Trieste to Italy, but were reported to have decided the Allied troops must stay there until Yugoslav and Italian tempers cool.

The original idea was to withdraw the 4,400 American and 3,000 British soldiers now on occupation duty in the free territory about the end of November.

Official sources said the United States, British, and French ministers also discussed whether they should make an early offer to Russia for talks on an East-West non-aggression treaty.

#### Legion Welcomes Probe Of Ranks

Indianapolis (AP)—The American Legion said yesterday it is a target of Communist infiltration and "welcomed" an investigation into its ranks.

160,228,000 In U.S.

Washington (AP)—The Census Bureau said yesterday the population of the United States on Sept. 1 was 160,228,000.

#### Rains Forecast For Region Hit By Severe Drought

Washington (AP)—The Weather Bureau in its 30-day outlook yesterday forecast drought-relieving rains in a broad belt from Texas northward through the Ohio Valley to New England.

The bureau said the "outlook for the period from mid-October to mid-November calls for temperatures to average below seasonal normals from the Great Lakes region eastward to the Atlantic Coast and also in the Far Southwest.

Above normal temperatures are expected in the Gulf and South Atlantic States as well as over most of the northwest quarter of the nation. Elsewhere near normal temperatures are indicated.

#### Demand Compensation

London (AP)—Britain yesterday demanded 20,000 pounds (\$36,000) compensation from Red China for a "wanton and unprovoked" shelling of a Royal Navy motor launch by a Chinese warship Sept. 9 off Hong Kong.

#### Chinese POW's Agree To Hear Communists

Panmunjom, Saturday (AP)—Five hundred anti-Red Chinese prisoners of war marched peacefully from their stockades to holding stations today, prepared to listen to Communist pleas to come back home, but a mix-up delayed start of the persuasion talks.

The Reds had brought Korean explainers to the neutral zone instead of Chinese.

The atmosphere in the neutral zone today was not as tense as it was yesterday when more than 7,000 North Korean POWs defied armed Indian troops, threatened a mass breakout and forced cancellation of Red explanation sessions.

The Neutral Nations Repatriation Commission had scheduled 1,000 Chinese POWs for Red interview today.

The Communists yesterday asked that Chinese be brought to the explanation centers today but late last night requested Korean captives instead. The commission turned down the late request.

Regardless, the Communists showed up this morning with Korean explainers.

#### General Curtis Resigns; Fluck Commands 28th

Harrisburg (AP)—Gov. John S. Fine yesterday announced the retirement of Maj. Gen. Charles C. Curtis as commanding general of the 28th Infantry Division, Pennsylvania National Guard.

Curtis, a resident of Allentown since 1920, resigned because of ill health, the governor said.

Fine commended Curtis for his "outstanding and unselfish devotion to duty during 37 years service to the state and nation."

The governor said Brig. Gen. Henry K. Fluck has been placed in command of the 28th Division until a permanent assignment is made.

#### New Declines In Prices Noted

Washington (AP)—Average wholesale prices declined 0.2 per cent during the week ended last Tuesday, the Bureau of Labor Statistics reported yesterday.

The decline pegged the wholesale price index at 110.1 per cent of 1947-49 average.

"Considerably lower prices" for hogs and lambs and somewhat lower prices for most cattle were mainly responsible for the decrease in the farm products index. Grains and eggs were slightly higher.

#### Blast On Leyte In Boston Yard Followed By Fire

Boston (AP)—A rumbling explosion tore through the big aircraft carrier Leyte yesterday, killing at least 30 and injuring 40 others.

It was not known immediately how many of the dead were officers or enlisted men. It was reported some civilian Navy Yard employees were among the victims. No names of victims will be announced until 9 a. m. today.

The 27,500-ton ship was tied up at the South Boston Naval Shipyard Annex when the explosion and flash fire swept below decks forward.

The flash fire which accompanied the blast charred some of the bodies so badly that naval spokesmen said identification will be difficult.

Six hours after the blast, firemen had worked down four decks and still four to go although the flames were under control.

Capt. Thomas A. Ahroon of Norfolk, Va., a Navy pilot who took command of the ship on Sept. 27, said that rescue parties and damage control men were in action "in seconds" after the blast shook the ship.

Capt. Ahroon was in his cabin when clouds of "bright" smoke swirled in and blocked two exits. He climbed out an escape hatch through the side of the ship and ascended a ladder to the flight deck to direct rescue and fire fighting operations.

More than 50 Boston fire trucks and rescue companies raced to the yard to lend aid.

Capt. Ahroon said a court of inquiry had convened to investigate the blast. It was the worst Navy explosion disaster in peacetime since June 12, 1924, when 48 were killed aboard the battleship Mississippi off the California coast.

Navy and civilian firemen fought the blaze for three hours before controlling it in the myriad compartments of the multi-decked forward part of the ship.

Meanwhile, hospital corpsmen from other Navy ships and installations, along with civilian doctors, nurses and fire department rescue teams worked over the injured many of whom were felled by smoke.

More than a score of ambulances ferried the injured to hospitals when they were carried off the ship after receiving plasma and other first aid treatment.

Dr. Dominic Pilka, called from his office nearby, said that he viewed the bodies of more than a dozen dead, and that they appeared to have died from "suffocation, burns or submersion."

Early reports that several members of the crew were trapped by the fire in the ship's brig cells in which violators of regulations are imprisoned—were discounted by Capt. Ahroon.

He said that "there were no prisoners in the brig," and that the ship's detachment of Marines had reported to him within minutes after the blast that the brig was unlocked.

Capt. Ahroon said that rescue parties and damage control men plunged through smoke and flame to reach members of the crew trapped in the forward part of the ship.

"It was appalling," he said, "to see them go through the smoke with flame only a few feet away from them."

Other fire controlmen manned hoses to beat back the flames as the rescue workers, wearing oxygen masks, searched for the injured and the bodies of the dead.

The fire swept through the officers' wardroom, the quarters of the warrant officers on one deck, and the berthing space and mess room for enlisted men on the deck below that.

The officers' quarters swept by the fire were one deck below the hangar deck.

The blast occurred at 3:15 p. m., just before the day shift was ending for thousands of civilian workers in the yard.

The workers were held in the yard for hours to allow a check of their identifications so that the missing could be determined.

#### Complainant To Wed Defendant

Buffalo, N. Y. (AP)—The complainant, a man, stepped before City Judge Thomas J. Cosgrove yesterday with obvious reluctance.

He told the judge he wanted to withdraw his charge that the accused, a woman, had stolen \$21 from him.

"Why?" asked the judge.

"We're being married," replied the complainant.

#### Great Britain Charges Israel Perils Peace

London (AP)—Britain accused Israel yesterday of endangering Middle Eastern peace by an "apparently calculated attack" on three Jordan villages that cost 56 lives. She demanded that Israel punish those responsible and compensate the Jordanians.

In Washington, the U. S. State Department was reported considering a public denunciation of Israel. State Department officials said they were "very much concerned" about the incident and were following all developments closely.

Lincoln White, State Department press officer, said Eric Johnston, President Eisenhower's special envoy to the Middle East now en route there, "will do what he can" to ease the tension.

The British protest on behalf of Jordan, Britain's closest ally in the Middle East, was the strongest London has delivered to any foreign government in years.

It followed charges made Thursday night by the United Nations-sponsored Mixed Armistice Commission in Jerusalem that Israel was guilty of "aggression against Jordan and its citizens" in attacking the three Jordan villages, in a border area 15 miles northwest of Jerusalem, Wednesday night.

United Nations, N. Y. (AP)—Syria yesterday denounced Israel's diversion of the Jordan River as a flagrant violation of the Syrian-Israeli armistice and called on the Security Council to do something about it.

Israel wants to alter the Jordan River bed between Lake Huleh and the Sea of Galilee for irrigation purposes. The Mixed Armistice Commission, through its Danish chairman, Maj. Gen. Vagn Bennike, had called on Israel to discontinue the work, but Israel had refused to comply.

# Bishop Hafey To Officiate At Dedication Of New Church

## Ceremony Scheduled For Sunday

Dedication of St. Luke's Church, Stroudsburg, will take place Sunday at 11 a.m.

His Excellency William J. Hafey, bishop of Scranton, leads the dedication of local and diocesan officials presiding at the ceremony.

Bishop Hafey, accompanied by a procession of clergymen, deacons and honor guard, will preside at the laying of the cornerstone to the new, modern church structure.

Members of the procession will include priests and monsignori from the Scranton diocese; two Papal Knights of Malta as attendants; an estimated 12 Knights of Columbus and 60 men of the local parish as honor guard.

First event in the ceremony will be the actual blessing and laying of the cornerstone. Following this Bishop Hafey leads the procession around the exterior of the church, blessing the structure and its foundation.

At this point the procession moves to the interior of the church, where official blessing will again be pronounced for the nave and sanctuary.

Prayers will be spoken. A blessing will be said upon the altar of the church. Ceremonial litany marking the religious significance of the event will be given.

Rev. Harold G. Durkin, pastor of the new church, will then celebrate the first mass to be said in St. Luke's.

Bishop Hafey will deliver the inaugural sermon. Rev. Durkin will give remarks immediately preceding and following the sermon.

The dedication ceremony is expected to attract a large audience of Catholics in local parishes and state, national and diocesan officials.

Serving as deacons in the procession will be Rev. Michael J. Kennedy and Rev. Francis G. Barrett.

Children of St. Matthew's Parochial School, East Stroudsburg, will provide music for the entire service during the mass. The choir is under direction of sisters of the Immaculate Heart.

Religious sisters from that order and others throughout the diocese are expected to attend the ceremony.

Rev. Durkin announced this week that a Benediction of the Most Blessed Sacrament service will be held at 5 p.m. Sunday.

Those persons who cannot gain admission to the new church during the mass Sunday morning—the church holds only an estimated 400 persons—are invited to attend the 5 p.m. service at St. Luke's or the 11:15 a.m. mass celebration at St. Matthew's.

St. Luke's will be open for inspection throughout the day Sunday, Rev. Durkin said. Doors will be closed at 6 p.m.; the pastor said.

A special luncheon for attending priests will be held at 1:15 p.m. Sunday in the Penn-Stroud Hotel.

## Bible Lesson Topic Given

In Christian Science churches Sunday, the subject of the Bible Lesson will be the "Doctrine of Atonement."

The following prophecy of Isaiah (50:20) is the Golden Text: "The Redeemer shall come to Zion, and unto them that turn from transgression in Jacob, saith the Lord."

Among the Bible quotations is this verse from I John (4:10): "Herein is love, not that we loved God, but that he loved us, and sent his Son to be the propitiation for our sins."

A passage from the textbook is this (18:1-5): "Atonement is the exemplification of man's unity with God, whereby man reflects divine Truth, Life, and Love. Jesus of Nazareth taught and demonstrated man's oneness with the Father, and for this we owe Him endless homage."

## Church To Show Science Movie

A queer little fellow who sports a multi-colored wardrobe, a built-in laser tongue and ball turret eyes stars in a new science film just released, proving that nature had it first. A chameleon, he's in the Moody Institute of Science film, "Prior Claim," which will be shown at First Baptist Church, East Stroudsburg, Sunday at 7:30 p. m.

The camera also ferrets out such intriguing facts of nature as the elephant seal which suffers from stomach ulcers, a snake equipped with its own "sniper-scope" or thermal receptors, a diving spider which makes its own diving bell, a bird which flies like a helicopter.

"Prior Claim" points up such quaint and fascinating natural phenomena. But it is being discovered that many of nature's devices operate on the same principle as the great electronic advances of our time. Thus even in the inventions and developments which characterize this modern age, man does not have the prior claim. Wherever he may delve he finds that God was there first—He created it!

**A LOOK INTO THE FUTURE**

Meet John and Mary Smith—and their child.

See the pride and hope, the faith and love that shine like soft lights from the little girl's face? See the look of the future in her eyes?

Nothing in all the world could cause that reflection of happiness and contentment but a well-behaved child. Perhaps she has just spoken a piece. Perhaps she was singing a song. Perhaps she is playing with her small brother and sister.

But whatever she is doing, you will agree it is the result of wise and loving guidance. And you can be certain there is another member of the family not shown in the picture—God, the guide and Father of all of them.

Where parents and the Church work together for God, you will find true happiness.

**THE CHURCH FOR ALL...  
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### Your Chest Dollar

Each dollar you give to Community Chest is split 14 ways.

There are 11 separate agencies supported by Community Chest funds. Three administrative categories for the Chest are financed by the funds.

Here's the way your dollar contribution is divided:

Eight and four-tenths cents goes to local organizations of the Boy Scouts of America.

Fourteen and two-tenths cents goes to the Children's Aid Society.

Fifteen and four-tenths cents goes to the Young Men's Christian Association.

Four and six-tenths cents goes to the Child Health Committee.

Sixteen and one-tenth cents goes to Monroe County General Hospital.

Thirteen and one-tenth cents goes to the Salvation Army.

Three and five-tenths cents goes to local chapters of the Girl Scouts of America.

Nine and two-tenths cents goes to Public Health Nursing.

Eight-tenths of one cent goes to the Crippled Children's Society.

One and two-tenths cents goes to the United Defense Fund.

One-tenth of one cent goes to the Pennsylvania Citizens Association.

Nine and one-tenth cents goes to the Chest administrative fund.

Two and five-tenths cents are used for the Chest campaign.

One and five-tenths cents goes into the Chest's "contingent" fund.

Each of these figures represents an approximate total donation from each dollar you give.

This means you're giving less than the price of a one-cent stamp to the Crippled Children's Society; less than the price of a five-cent cigar to the Child Health Committee; less than the price of a pack of cigarettes to the Children's Aid Society, Y.M.C.A., General Hospital or Salvation Army.

### Those Were The Days!

Doubtless in your concern with paying your September bills and figuring just how much your next payment on income tax was going to be, you failed to observe with proper enthusiasm the 40th birthday of the tax, which took place almost two weeks ago.

For it was on Oct. 3, 1913, that the Underwood Tariff Act of that year was signed into law by President Wilson, thereby bringing to an end that halcyon period when the thought of an income tax was not even a tiny cloud on the horizon.

Even when the act took effect two generations ago it showed slight concern for the income tax as a revenue-producer, for the income provision was carried as a part of a tariff act rather than as an individual revenue measure. And the 1913 rates were not of such stature as to cheer the Treasury or depress the taxpayers.

In those happy days a single person was exempt if his income was under \$3,000, and a married person if his income was less than \$4,000. Even above these brackets the rates were infinitesimally low with 1 per cent up to 20 grand of income and only 2 per cent up to 50 thousand. The maximum rate was 7 per cent.

Ponder this: If you were married, had a couple of children, and made \$10,000 a year in 1913, you paid exactly \$60 in income tax to the government at Washington. Now, it would be around \$2,000.

Do you still feel like celebrating the birthday of the income tax? Well, but remember that each of the many dollars being paid in today's income tax is worthy in purchasing power only about one-third as much as each of the few dollars paid in tax 40 years ago.

This make you feel any better?

### The Once Over

—by H. I. Phillips

Herman Hickman, famous football star, ex-Yale grid coach and airway personality, has turned book author. (This will make him, pound for pound, one of the top literary figures in the world.) His success represents years of good eating and we toss our lid into the air for the complete reversal of the "for years I starved in garrets before I found a publisher" routine. Here is an author and poet who started his career in a well-provisioned southern kitchen, struggled through some of the largest banquet halls of the nation and had scaled the heights of obesity before he won recognition!

"Yes, I won out, but the battle was a long one," said Mr. Hickman today over a planked steak with a "spare" attached. "There were many times when I had a terrible fear that I could eat no more at one meal. Ah, those long years far from any barren foodless garret! . . . Those long months when I wrote on tablecloths, the back of menus and the cuffs of white shirts, with almost no time at all between meals! . . ."

"If must have been terrible," we admitted, signalling a waiter that the author would have to have another shipment of mashed potatoes with gravy.

"There were times in those dreary years when I was so exhausted from eating that I despaired of ever winning recognition in the literary field," the 340-pound former All-American went on, switching knives and forks. (He wears out table utensils very fast.) "Many a night after a long day in which I had been unable to know hunger, I was about ready to give up. Once a banquet on my schedule was called off and for a few brief

hours I thought at last I might feel a craving for food, but some Yale grads dropped in with a load of venison. It was always like that. Oh, the agony of it all!"

"Your advice to budding authors is that they should have the fortitude to stick it out no matter how much they have to eat?" we asked.

Definitely," said Herman, the name of whose book we won't mention because we are on a diet and envy him too much.

#### Success

Rise high in life,  
Go far each day—  
And maybe you  
Can see Joe Fay!

"Moon" is "South Pacific" without music. . . It's uncanny how much Tito resembles Benito Mussolini in balcony scenes. . . We expect any day now to see him playing tennis and taking the hurdles at a horse show. . . "Case Goods" came first in a big race in New Jersey the other day, which surprised us as we had come to think such things only came in "fifties." . . The National Boxing Association has ruled that there is nobody in sight as a fit opponent for Rocky Marciano. . . If Rocky wants a fight he may have to get a job as delegate to the United Nations. . . Nothing has lost force in America so much as "Cheese It, the cops!" . . . President Eisenhower's superduper birthday party at Hershey, Pa., with a \$100-per-plate barbecue held in a Ringling Brothers tent for 6,500 guests and with 20,000 or more people attending the general festivities, may bring back the old-fashioned rip-roaring birthday celebration to American life. . . It's years since birthdays amounted to much. . . A lot of people tied them up as something belonging to Tories and other Republicans. . . People were afraid to throw a gala birthday celebration for fear the Democrats would impose a tax on it or something

Robert S. Allen Reports

### U. S. Military Strength Will Not Be Deeply Cut

Vain Hope — Attention, potential draftees

Secretary John C. Huston. He disclosed it during a private discussion of U. S. manpower plans with a group of NATO officials.

Huston told them that at the most American forces will be reduced by only five percent for an overall total of 3,356,000 by July, 1954.

"What is the size of the major components of your military establishment?" he was asked.

"The Army now has 20 divisions, 18 regimental combat teams, and 114 anti-aircraft battalions, plus the necessary supporting elements," Huston said. "The divisions are reasonably well-equipped, and in a number of instances the Army is beginning to accumulate reserve stocks of weapons and munitions. We plan to add three more anti-aircraft battalions by next July."

"The Navy has 1,129 ships in operation, including 408 warships and 16 air groups with the necessary supporting combatant and auxiliary vessels. The Navy will have approximately the same number of warships next year, but Navy aviation will be strengthened by substantial deliveries of new planes which will radically modernize fleet air units. The Marine Corps will continue on a three division basis, with three Air Wings.

"The Air Force has 106 Wings activated to date. By next July, the number will have been increased to 114 Wings. Also, during next year we will equip seven National Guard and Reserve Wings with modern aircraft.

Millions of Americans stopped acknowledging they were a year older every twelve months, with the result that there are today in this country (especially on stage and screen where people are sensitive about such things) thousands of people who must be close to 100 but insist they are under 50. . . . George Sokolsky Says . . .

### Soviet Russia Has Violated Clauses In Agreements, Treaties Regularly

The theory supporting the existence of the United Nations is that all of its 60 members will not engage in aggression against each other, or even against nations which are not yet members of the United Nations. The theory is that war has been outlawed as an instrument for the settlement of international differences. This is the third attempt at this concept, the League of Nations and the Kellogg-Briand Pact being its forerunners.

Nevertheless, wars have occurred despite the existence of the United Nations, and sovereign states do make separate treaties and agreements. In the Korean War, members of the United Nations supported North Korea, an aggressor, while other members of the United Nations were neutral in a war declared by the United Nations. Actually, all the world is at this moment engaged in the preparation for war which some experts believe might break into a hydrogen bomb war as early as 1956. Therefore, the hope of some statesmen is that a non-aggression pact may be written between the United States and Soviet Russia which will either postpone or eliminate such a war.

There is, however, a long record of non-aggression pacts with Soviet Russia which have been violated by that country:

1. Treaty of Neutrality and Friendship with Turkey—1925—denounced 1935.
2. Treaty of Neutrality and Non-Aggression with Afghanistan—1926—violated 1940.
3. Treaty of Non-Aggression with Lithuania—1926—annexed 1940.
4. Treaty of Neutrality and Non-Aggression with Persia—1927—violated 1945.
5. Pact of Non-Aggression with Latvia—1932—annexed 1940.
6. Pact of Non-Aggression with Poland—1932—attacked 1939.
7. Pact of Non-Aggression with Estonia—1932—annexed 1940.
8. Pact of Non-Aggression with Finland—1932—denounced 1939.
9. Pact of Non-Aggression with China—1937—conquered Manchuria 1945.
10. Pact of Non-Aggression with Yugoslavia—1941—withdrew diplomatic recognition one month later.

These are a few friendship and non-aggression pacts selected from a long list of agreements and treaties violated by Soviet Russia.

The Russia definition of aggression is particularly satisfactory because it includes political aggression. These are the words:

"Each of the Contracting Parties undertakes to abstain from all kinds of aggression against the other and will not, on the territory under its own occupation, take any such steps which may cause political or military injury to the other contracting Government. In particular, each of the Contracting Parties undertakes not to join any other state or states in any political or military alliance or union directed against the other Contracting Party, and similarly it will not join in any boycott or financial and economic blockades directed against the other. . . ."

Further, the definition includes this statement:

"The Contracting Parties will

not permit any groups or individuals in their own territories to establish or to prosecute activities detrimental to the other Contracting Party; to take steps for the subversion of the established Government of the other contracting state; to take any action against the integrity of the territory of the other Contracting Party. . . ."

Nevertheless, Russia has violated treaties and agreements containing these or similar words. In 1933, by an exchange of correspondence between Roosevelt and Litvinov, the United States agreed to recognize Soviet Russia. One of the stipulations was that neither country would employ political parties or groups, even of natives, to upset the government of the other. One year later, in 1934, Soviet Russia organized the Harold Ware Cell in Washington to infiltrate the American Government up to the second level of authority. At least four espionage cells were stationed in this country. The atom bomb was stolen. There is no knowing what else has been stolen. All these acts were violations of the Roosevelt-Litvinov agreement.

Soviet Russia has violated clauses in agreements and treaties and the general provisions of international law in every country in the world by propaganda, by infiltration, by Communist Party activity, by subversion, by the corruption of natives, and by direct and indirect war. No example exists of such an anarchistic attitude toward contractual relations similar to this. The Russians cannot be trusted. Therefore, a non-aggression pact is a useless document. Actually, the Charter of the United Nations covers any condition that a non-aggression pact would.

# Committee Announces Plans For Pennsylvania Week Dinner

## Governor Fine To Give Award To Newberry

Final arrangements were made yesterday by a special Pocono Mountains Chamber of Commerce committee headed by Sen. Montgomery F. Crowe for presentation of a Pennsylvania Ambassador award to J. J. Newberry, chain store magnate and former resident of Stroudsburg.

Mr. Newberry, who started his first store here, was made Pennsylvania Ambassador during last year's Pennsylvania Week observance. An illness at that time prevented him from receiving the handsome aluminum plaque "for achievement in the highest traditions of Pennsylvania."

This year's Pennsylvania Week in the Poconos was moved to the week of Oct. 27 so that the presentation could be made during that week.

Gov. John S. Fine will definitely be here Oct. 28.

He will present the ambassador award to Mr. Newberry at a dinner scheduled for 6:30 p. m. in the Penn-Stroud Hotel.

Sen. Crowe said tickets will be on sale Monday at the Penn-Stroud, Hanford Cleveland's store and the Leon Koster store in East Stroudsburg. The price is \$5 per person.

The chairman met with a group at the Penn-Stroud yesterday to iron out final details of the award dinner. They represented all parts of the county. He announced:

Frank B. Michaels, president of Stroudsburg Security Trust Co. and one of Mr. Newberry's friends and former financial advisors when the Newberry chain was started here, will give an outline of Mr. Newberry's life and attainments.

Rev. P. K. Emmons, pastor of Elm Park Presbyterian Church, Stroudsburg, and pastor of First Presbyterian Church, Stroudsburg, when Mr. Newberry was a member, will be another speaker.

S. S. Kresge, Mountainhome, also a chain store magnate who was honored as Pennsylvania Ambassador from Lackawanna County last year, has been invited.

Tommy Cullen's orchestra will play dinner music during the award affair.

Assisting Sen. Crowe on the award dinner committee are:

President Judge Fred W. Davis, B. K. Williams, H. G. Sanborn Jr., Herb Stoner, Jesse Flory, Gerald P. O'Neill, Max Stadfield, Elton Hall, Merle C. Ostrom, Jack Shinn, Bill Altier, Frank Birdsall, J. H. Stofflet, M. S. Baldwin, John Litts, A. M. Price, Roy Houser, Dale H. Larn, F. B. Michaels, W. S. Pecney, F. S. LaBar.

Homemakers To Take Field Trip

Bangor—The future homemakers of America Club of Bangor High school met at the high school and decided upon a field trip to Harrisburg in January. It was also agreed that guests from the 7th to 10th grades would be invited to accompany the group via chartered buses.

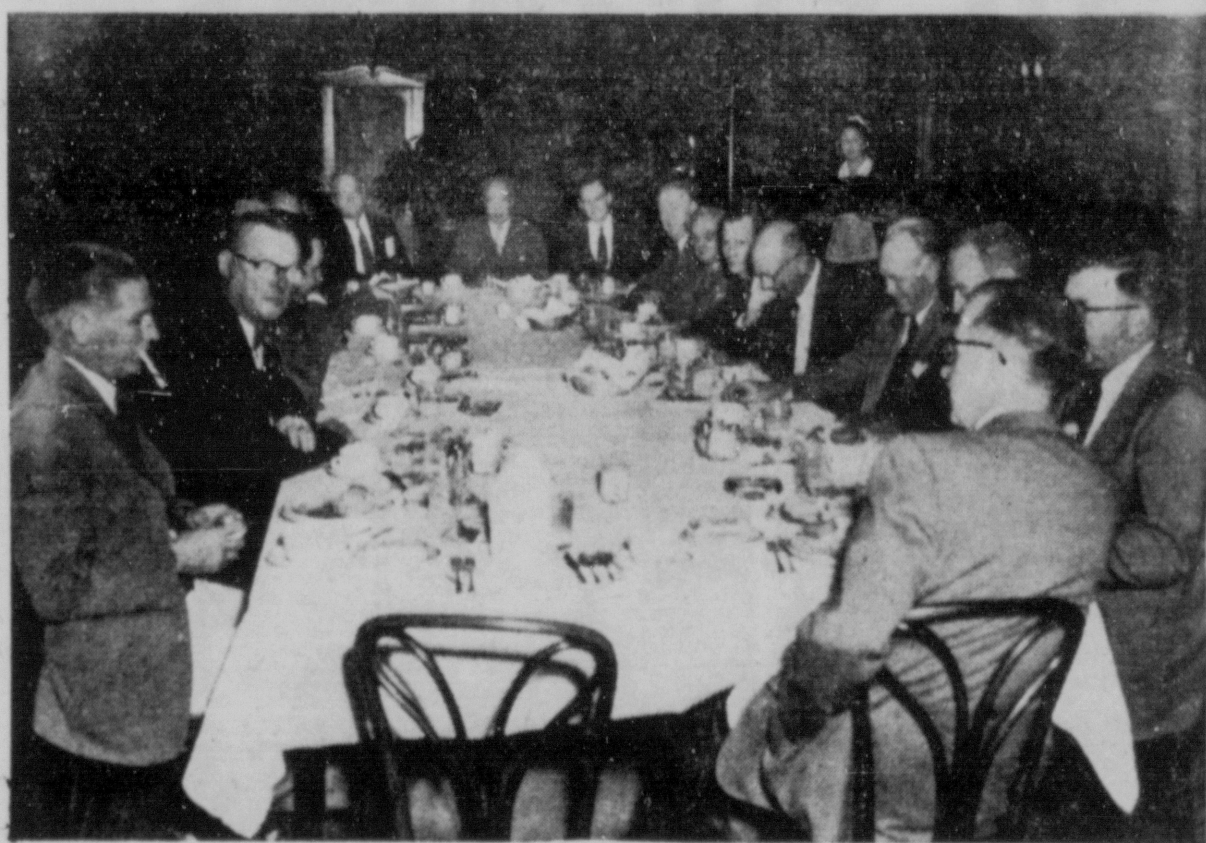

It was also decided to enter two floats in the Bangor Chamber of Commerce Halloween parade on Oct. 31. Lillian Marcantonio, president of the group, was in charge of the meeting. Miss Dorothy Everett, home economics teacher and adviser of the group, supervised the meeting.

Vocational Ag Teachers Meet

Monthly meeting of area vocational agriculture teachers was held Thursday in the office of John C. Litts, county superintendent.

After the regular business meeting a tour of the State Teachers College library visual aids section was made.

Teachers attending were Albert Cross, Stroudsburg; Frank Varney, Chestnut Hill; Clifford Stroud, Polk; George Ott, Bangor; John Montgomery, Pocono; Theodore Hoffman, Pen Argil and Wilmer B. Frisbie, vocational ag advisor for Monroe and Northampton counties.

AMONG THOSE WHO CONFERRED on special events for the Pennsylvania Week celebration Oct. 28 in which J. J. Newberry will be honored as Pennsylvania ambassador were these local businessmen. Meeting was held in the Penn-Stroud ballroom. Luncheon was served. Gov. John S. Fine will be among leading dignitaries present for the award dinner. (Daily Record Photo)

## Partial Work Resumed At Tobyhanna Signal Depot

Tobyhanna—Work resumed on some portions of construction at the Signal Depot here yesterday.

Col. Charles S. Tucker, resident engineer, said laborers and bricklayers went back on the job after staying away for more than a week in a "sympathy" work stoppage.

## Sabatino Is Freed, Then Rearrested

Anthony Sabatino, Stroudsburg RD 1, was freed on a charge of involuntary manslaughter and immediately rearrested on the same charge this week before Justice of Peace R. S. Daniels, Wind Gap.

Daniels ordered Sabatino held in \$2,500 bail on the second charge. A charge of involuntary manslaughter was filed against the Rt. 90 tavern owner the first time on Sept. 29 by Wind Gap police chief W. L. Templeton.

Charge grew out of death of Sabatino's wife, Mrs. Katherine Rice Sabatino, in Easton Hospital. She had been injured in an accident when the car driven by her husband skidded into a tree on Lehigh Ave., Wind Gap two days earlier.

Justice Daniels heard the first charge for the first time on Oct. 9; reserved decision until Oct. 15. At Thursday's hearing, Daniels dismissed the count because of what he called "legal technicalities."

Templeton then filed the second charge—identical in nature with the original count—against Sabatino, operator of Kitty's Tavern between Stroudsburg and Bangor.

Daniels set Friday, Oct. 23 at 2 p. m. as time for the hearing. Bangor attorney, Edmund P. Turtzo, defense counsel, called the second arrest "highly improper". The Commonwealth, Turtzo said, failed "utterly to produce evidence to establish the essential features of the crime" in this week's hearing.

## Acme Hose Co. Called To Diner

A diner stove had fire on top last night in East Stroudsburg.

It was a strictly non-legitimate grease-type blaze, however. Grease on top of the stove at Bescker's Diner, N. Courtland St., caught fire shortly after 8 p. m. Acme Hose Co. was called. The blaze was out before the fire company arrived, diner attendants said.

## Youth Jailed On Charge Of Burglary

A 19-year-old Wind Gap youth was committed to Monroe County jail yesterday on a charge of burglarizing the Blue Ridge Drive-In theater in Saylorsburg.

Robert John Laubach, Lehigh Ave., Wind Gap, previously had been released on \$10,000 bail by Northampton County authorities on charges of breaking and entering and burglarizing, or attempting to burglarize, three businesses in Wind Gap.

Laubach appeared in five Justice of the Peace William Walton in Stroudsburg.

He was charged officially with the burglary of the drive-in movie during the month of September.

Charge was filed by Anthony Bensch, Brodheadsville State Trooper.

Bail was set at \$2,500 by Squire Walton.

Laubach was picked up by Wind Gap Police Chief W. L. Templeton on Oct. 10 between 2:30 and 3 a.m.

The police chief said the youth was in the process of burglarizing the Wind Gap Atlantic service station.

Police investigation revealed that the "same tool" had been used previously in breaking into the Wind Gap school and an attempted burglary of the Wind Gap theater.

School was broken into on Sept. 25. The attempted theater burglary occurred on Oct. 3, Templeton said.

In all three cases—and in the drive-in burglary—a "lug wrench of the L-type, with socket on one end and screw-driver on the other" was used.

Laubach appeared before Wind Gap Justice of Peace Russell Bowers on the three charges. He entered a plea of not guilty, Templeton said.

Bowers set bail at \$10,000. Laubach was released a short time later. Templeton then contacted Brodheadsville State police in connection with the previously-reported drive-in burglary.

## Vacation Bureau To Discuss Effect Of New Highways On Pocono Mountains Area

The effect of a new network of highways, pouring thousands of extra visitors into the Pocono Mountains region, will be the principal order of business Monday, Oct. 26 at a meeting of the Pocono Mountains Vacation Bureau in the Penn-Stroud ballroom.

Under discussion will be the impact of three new bridges across the Delaware River. All three provide maximum traffic inlets for major highways connecting this area with New York, New Jersey and other states along the East Coast.

Resort owners, hotel managers and innkeepers will turn their attention toward suggestions for meeting the influx of tourists, traffic and increased business.

Reports and discussion of a proposed Pennsylvania Turnpike through the Pocono Mountains region will be heard at the meeting together with an investigation of a "Schuylkill Expressway."

According to announcements sent out by the bureau, the meeting will be "strictly informal and strictly business."

A report on "Travel Trends," gained from information gathered at the American Hotels Association convention in Montreal, will also be heard.

Policies of the organization during the coming year, advertising, dues schedules and general operation are also on the agenda.

All 1953 members are invited to attend, along with all former members and interested persons from the resort community.

## Your Red Feather Agency

# Salvation Army Providing Real Community Service

(This is the sixth in a series of articles on Red Feather agencies of YOUR Community Chest.)

By Leonard Randolph

There's a great deal more to saving mankind from "hellfire" and damnation than quoting from the Scriptures.

To help heal the wounds of circumstance and the crippling diseases of poverty and privation, the Salvation Army has adapted itself ideally to a situation which calls for common sense, consummate faith and infinite patience.

Workers from the Salvation Army must deal in the highly tangible problems of everyday misery.

Each day an Army worker may be called upon to provide food or clothing for a family unable to make provisions for itself.

This year, the Salvation Army in East Stroudsburg is under new direction, Capt. Charles Baker and his wife have succeeded Major May Adam in the post.

Regardless of its leadership, however, the local Army chapel will continue along patterns set down by its own national organization. Those patterns are basically designed for public service to the entire community.

As a Red Feather agency, the

Salvation Army performs its tasks in a specialized field. In many ways, it is a field which no other agency or element can touch.

Through practicing what it preaches, the Army attempts to prove there is no such thing as the "forgotten" man, woman or child.

One of the agency's most valuable services is performed specifically for the benefit of the younger generation. Here it works—in an adjacent capacity—with the efforts of the Girl Scouts and Boy Scouts.

Youth work done by the agency includes a training program for young girls (the Sunbeams) and older girls (Girl Guards). Keyed to a practical view of life's necessities, the program attempts to give the child a better, broader base upon which to build a life.

As a part of this program, the local Salvation Army carries on a drive to send underprivileged local children to Summer camp each year.

Training in handicrafts and other technical skills are an integral part of the youth work project assembled by the Salvation Army.

There are no age limitations

on those who benefit from S. A. work, however.

Old or young, only one consideration enters into Salvation Army treatment of each case—the actual "need" involved.

To perform its necessary duties, the Salvation Army depends almost entirely upon the community in which it lives—the community it serves.

Army workers are trained to deal in practical problems in a practical manner. A belief in God and in the ideals and principles of Jesus Christ forms the foundation for Salvation Army work.

But "salvation"—that highest of religious accomplishments—is not just a "miracle."

It takes a lot of sweat, hard work, tears, patience and rock-bound idealism in the face of great pessimism. Like most other public services, Salvation Army work badly needs the support of the community.

With sufficient funds and facilities, the Army can add its own contribution toward the welfare of mankind—coupled with a conviction that all men are worthy of salvation and the service it can give.

You don't need a space ship to travel faster than light. Your own car does just that when you "overdrive" your headlights!

On a clear night your upper-beam headlights, in good condition and focused properly, will reveal persons and objects on the road a long way

ahead. But if you're going a mile a minute, you'll need all that distance just to come to a complete stop.

Most fatal traffic accidents happen at night and that's why. The motorist has been traveling so fast that he couldn't stop in time when an emergency comes up.

This message in the interest of highway safety is one of a series prepared and disseminated by the Pennsylvania Newspaper Publishers' Association and the Pennsylvania Department of Revenue.

## Just Between Us

—By Bobby Westbrook

Suppose you were locked in a cabinet with no windows and only a typewriter and a telephone to keep you company, (no supposing about that, it's exactly the way I feel on Friday nights) you could still know that it was Autumn from the social news.

Velvet bodices for the bridesmaids gowns, mums for the tea table decorations, donations for the Community Chest at the club meetings, PTA meetings by the score.

Fortunately, we're not locked in a cabinet in the daytime, and it's a lucky thing in one way that housecleaning and Fall coincide, because there's nothing more satisfactory than cleaning windows on a fine, warm Autumn Day, and as you wipe away the dust of summer, a picture no artist has been able to make believable is revealed through each window pane.

And of course, it gives you a wonderful excuse for sitting on window sills with your head out and you feel inside and the blue sky reflected in the window in front of you.

The trouble is housecleaning also includes dark closets, under the furniture grubbing about and the unsavory looking things you uncover under couch cushions.

Tell you what, let's finish the windows and then let the rest go for a rainy day.

Santa Claus is coming to town, and because we at Wyckoff's would like this to be the finest Christmas ever, we are watching the calendar and suggesting Lay-Away purchases. A Christmas planned along Lay-Away lines can easily be the most outstanding the family has ever shared, for several reasons.

In the first place, systematic payment on a gift over a prolonged period of time makes it easy to give items that are more expensive and therefore of better quality. Then too, Lay-Away buying is buying done early—long before the rush begins, when selections are plentiful, and there is a wide variety of styles, colors, and price ranges.

This very minute, is the time to select a doll or a train for the little ones of the household. Certainly there will never be a more entrancing array of dolls than we have right now at Wyckoff's. If you doubt me, be sure to see the adorably costumed Little Women with their tiny hat boxes over their arms. Each has her very own gold Fashion Award medal. But more about them another day . . . Just see them for yourself when you come into Wyckoff's, and watch for their pictures in the ads. Remember too that there's nothing beyond reach of your budget—if you make thoughtful use of a Lay-Away plan.

Our big nine day birthday sale continues at Wyckoff-Sears, and you'll undoubtedly want to visit all of our departments and see for yourself the excellent values being offered. But don't make the mistake of looking only for the advertised items. Make your own discoveries in this world of merchandise, and really enjoy the atmosphere of "open house" that always prevails at Wyckoff's. Explore our accessories department, for instance, and see the adorable maribou and mink collars on sale there. They're feminine, dainty, and elegant, and simply snap or tie into place over any sweater or plain dress . . . Explore our jewelry department, and see the tiger lily pin fashioned of make-believe leopard; also the bracelets and other ornaments trimmed with fur. Find the new mustard seed lapel pin, which takes its place in your jewel box along with the mustard seed charm bracelet, necklace and earrings. As one customer quipped, "It's the prettiest thing I ever did seed." (And that isn't corn. It's mustard.) . . . Explore our lingerie department, and discover the very new charm of flannel and old fashioned chailis. You may never have dreamed it possible! Dainty, soft, as delicate to the eye as it is stout hearted in service, our new line of warm lingerie for the cold months ahead is delightfully tempting . . . Explore our gift department, and find all the bright accents for the home—gift decorated memo pads and pencils for the desk, tiles for the tea table, ash trays for occasional tables, milk glass, satin glass and hobnail for the curio cabinet, and Royal Dutch pottery for the mantel . . . Explore our glove department, and examine those double woven fabrics; those velvet trimmed glamour "hand-somes" and the Pecary pigskins. If you're going to keep your hand in the thick of things this fall and winter, you'll want a warm glove and a smart one . . . Then go over into the men's department, to see what Dad is wearing in jackets, caps, hats, shirts and ties. And when you've done all this, you've only begun. You still haven't been downstairs in Sears; through our arcade into housewares and general appliances, or upstairs into the fashion and home decorating departments. But what am I—an information bureau? A typewriter-equipped store plan? No—just a 20th century Christine Columbus, who finds that every nook and corner in Wyckoff's is a new world to conquer—or, more appropriately, a new horizon, opening up an entire new set of ideas, hopes, and desires. Which sets me thinking of that Lay-Away plan again!

## Progress Of Free Chinese On Formosa Is Exceptional

—By John Caldwell

(Author of the recently published "The Korea Story," Mr. Caldwell is a former State Department official, having headed the U. S. Information Service in China and Korea. He has just finished a new book, "China Coast Family," Mr. Caldwell is presently writing from the Orient.)

October 12, 1953. Taipei, Formosa. Free China. "We have been able to do things here that even the Japanese could not do." This statement by a Chinese official in central Formosa was followed by a recital of progress; the longest highway bridge in East-

ern Asia (which the Japanese could never complete); increased sugar production; red tea production in one area alone increased from 33,000 catties (under the Japanese) to 250,000 catties last year.

After the chaos of Korea, after the behind the scenes unrest in Japan it is refreshing to see the stability on this island. The story of Formosa and Chinese accomplishments here can be understood only if one goes into the country and talks to rice farmers, tea planters, fruit growers and minor officials as I did.

In a week of traveling about the island I have seen things I did not see in a lifetime spent in mainland China: farmers meeting to discuss their problems, rice farmers spraying their paddies with insecticides they purchased themselves; soldiers everywhere well behaved and at peace with local people.

To say that there are no problems would be foolish. The important and refreshing thing was that everywhere people spoke freely, without fear. Former tenant farmers now buying their farms were full of praise for the government's land reform program but had no hesitancy in making complaints. One involved providing water for drinking and irrigation.

Every person I interviewed praised the conduct of the Chinese army, which is bivouaced throughout the country. Some rice farmers felt that Chinese GIs drive much too fast and said their Farmers' Association was protesting to the local government.

Most of the progress on Formosa has taken place during

the last three years. A tea planter summed it up this way, "One thing is enough for me, Now I have freedom; freedom to plant what I want, to live as I like, to speak on most things as I wish."

The American Economic Mission must be credited for many of the accomplishments which were achieved in spite of stupid and inefficient leadership, still lingering with some of the American echelon. Fortunately the incompetents are being weeded out.

The American program is aimed at developing industrial know-how, at better use of natural resources and in particular at increased agricultural production. This program is directed by two American and three Chinese Commissioners as the Joint Commission on Rural Reconstruction. The staff consists of 260 persons, of whom thirteen are Americans. It has delved into every aspect of rural life. It is also the driving force in the excellent land reform program and has helped establish agricultural experiment stations, rural health centers, and new farming methods.

Money spent by JCRR itself (in Taiwan dollars secured through the sale of American aid goods) is as little as ten percent of a specific project cost. The remainder is provided by the sponsoring agency which may be a Farmers' Association, a town, city or village government unit.

Through JCRR (and its American technicians) the Chinese Government has provided a decent life for the farmers of Formosa. For the Chinese, Formosa is a blue print for future operations on the mainland. Most Mainlanders on Formosa realize quite well the past mistakes. They feel they can repeat in China what has been accomplished here.

Already the "next step" is being taken. JCRR has been asked to begin operations on Kinmen Island, off the Fukien coast and within range of Communist artillery. With problems similar to those on the adjacent coast, Kinmen and its 40,000 farmers will provide a planning and proving ground for the enormous problems that will be faced on the mainland. And there is no doubt in the minds of these Chinese about returning to the mainland. It is not a question of "if" but of "when." Every action, every program is planned for the day when the Chinese will go home again.

## Sunday School Lesson

Scripture — Matthew 5:13-16; John 14:12-14; I Corinthians 3:6-15; II Corinthians 5:14-20; Ephesians 4:32; Hebrews 13:1-2a; James 1:22; 2:14-18.

By Newman Campbell

Imagine a Rip Van Winkle who went to sleep 100 years ago, and awoke in our modern world. Wouldn't he be astonished and perhaps terrified to see vehicles of all kinds rolling along the streets and highways without any visible means (to him) of locomotion?

He would see great airplanes lifting themselves from the earth and soaring aloft, and people boarding them, traveling many hundreds of miles without apparent concern.

He would hear casual talk of automobiles, airplanes, atom bombs, world wars, and a whole new vocabulary, so that he would not know much of the time that people were talking about as they discussed such things as electricity, nuclear fission, telephones, television, motion pictures and many things that have become common to us.

Men of today have, as we said, new vocabularies, new thoughts on many subjects, but would he find that underneath all this, they would be different or "new" men?

More people in the world are educated, more can read and write. We know more about the world than we ever did before, but our world holds dangers that were not dreamed of when Rip Van Winkle was awake 100 years ago, and there is fear of more terrible wars than were possible in those days.

We need new men in this new world; men who are changed—made new—by accepting the Word of God and faith in Jesus Christ. This could change them so that His work could be done on earth as it is in heaven.

We go back to the Sermon on the Mount, when Jesus said to His disciples: "Ye are the light of the world. A city that is set on a hill cannot be hid."

"Neither do men light a candle, and put it under a bushel, but on a candlestick; and it giveth light unto all that are in the house."

"Let your light so shine before men, that they may see your good

works, and glorify your Father which is in heaven."

That does not mean that we should boast of our good deeds so that men may praise us, but that by all our actions and words we shall show others what we believe and what we live by, so that they, too, may be changed.

Paul writes of his work: "I have planted; Apollos watered; but God gave the increase. . . . Now he that planteth and he that watereth are one; and every man shall receive his own reward: for we are laborers together with God: ye are God's husbandry."

Isn't it a thrilling thought to consider ourselves God's husbandmen and co-laborers? We can plant the seed of Christ's salvation in other men's ears and water it and pray for the harvest. "He—Christ—died for all, that they which live should not henceforth live unto themselves, but unto Him which died for them, and rose again."

"Therefore if any man be in Christ, he is a new creature: old things have passed away; behold, all things become new."

To the Hebrews Paul writes: "Let brotherly love continue. Be not forgetful to entertain strangers; for thereby some have entertained angels unawares. Remember them that are in bonds, as bound with them."

St. James tells us: "Be ye doers of the word, and not hearers only, deceiving your own selves," and further he says: "What doth it profit, my brethren, though a man say he hath faith, and have not works: can faith save him? If a brother or sister be naked, and destitute of daily food, and one of you say unto them, Depart in peace, be ye warmed and filled; notwithstanding ye give them not those things which are needful to the body; what doth it profit?"

Our faith must not be a selfish thing. We must hold it fast, but we must also show by our works that we are God's children and strive to be His helpers. Thus will we become "new" men, women and children to make this "new" world better.

## Life of Riley

By JIM RILEY  
Sports Editor

Although football season is currently in vogue and basketball action is just around the corner, baseball is still very much in the minds of the people of Berks Township. Their Pocono Mountains League entry is battling for the post-season playoff championship with Kunkletown and they are hard at work building a new official Little League field when time permits, as are the adults of the locality. Special attention is being given to the infield at the present time. It will feature a four-inch slope from the pitching mound for drainage purposes.

When East Stroudsburg State Teachers College tangles with Mansfield, on the latter's home field today, the Warriors will be stacking up against a Normal Hill grad in the person of Mansfield Coach Ed Rushin. Ed formerly played quarterback for the Warriors. Mrs. Rushin, the former Jane Quinn, also plans to attend today's "Home Coming Day" contest. Mrs. Rushin is a graduate of East Stroudsburg High school and also of ESSTC. ESSTC scored a decision over Mansfield last season, 14-7. It should be another close game today.

ESSTC was kind enough to allow some of the injured East Stroudsburg High gridders, who aren't expected to see action against Morrisville tonight, use of the Normal Hill whirl-pool bath yesterday. East Stroudsburg High and ESSTC have so many grid injuries at the present time that each player apparently needs a private whirl-pool. A large following of East Stroudsburg football fans will be on hand to cheer for the Cavaliers in tonight's tussle at Morrisville, despite the fact that at least six key members of the purple and white clad grid machine will be on the sidelines with injuries.

Paul Cobb holds the high single score of the season in the Tuesday Night League, while "Mose" Gordon's 609 is high for the present campaign in the match score department. Cobb bowls with the Rockies, while Gordon captains the Serfass Gulf Station five. Lafayette is only one of several colleges interested in Jack Finelli, fine halfback on the Bangor High grid contingent. Several Bangor High graduates, who made their mark in athletics in the State Belt, are currently making appearances in colleges in various sections of the country.

Tom Williams, a 195-pound tackle of last year's football squad, is playing the same position as a freshman at Moravian. Rocco Cinelli, 200 pounds, and Joe Yannuzzi, hard charging tackle and guard for the Slayers in football last season, are now going through their grid paces at Wyoming Seminary at the present time. Joe Heard, as mentioned previously, is now a student at Moravian. Joe, who was a three-letter athlete at Bangor, has decided to give up football and concentrate on basketball and baseball in college. Joe was an end in football, forward in basketball and first baseman in baseball.

Jim Rowlands, center on last season's Bangor grid machine and high scoring center in basketball, is currently enrolled at Notre Dame, but is devoting his time only to intra-mural sports. Bob LaPenna, a truly outstanding end until a leg injury pushed him out of action last season, is now a student at East Stroudsburg State Teachers College. Bob isn't playing football in his initial year at college. Dominic "Ziggy" DeFranco, currently a mainstay of the ESSTC backfield, is one of the best halfbacks ever developed at Bangor. Dom was a student at the University of Cincinnati before transferring to Normal Hill. He also played football at Cincinnati.

Vince DeFranco, another former three-letter athlete at Bangor, is now a student at Colgate, after attending Blair Academy for one year. Vince is now playing football at Colgate and was also a member of the Colgate baseball squad last season. Bob Egbert, high regarded guard in basketball and ace pitcher in baseball, is representing Bangor at the Philadelphia Textile Institute, where he expects to play both basketball and baseball. It was mentioned here the other day that George D'Alessandro was playing football at Kutztown State Teachers College, but we didn't know at the time that the former Bangor High athlete played a very important part in last Saturday's 6-0 win over Millersville.

It seems that George tackled the Millersville safety man so viciously while he was receiving a punt in the first period that the Millersville gridders fumbled and Kutztown recovered the ball deep in Millersville territory. Kutztown scored a couple of plays later and then went on to protect the lead during the remainder of the game. Don Bastionelli, a soccer player at ESSTC who is ineligible for varsity competition this season, is a transfer from Lehigh.

I hope that the day isn't too far away when there will be some sort of law preventing politics from mixing with sports. Sports are weak for allowing politics to mix and politics shows its filthy side by trying to get its hooks on athletics.

## Stroudsburg Rallies To Edge Bangor, 13-7

## Mountaineers Win Fifth Straight Battle

Bangor—A tired, but dead game Stroudsburg High grid machine pulled itself together in the fading moments of the fourth quarter here last night to score the deciding touchdown and triumph over Bangor High, 13-7, before an estimated 3,500 people at Memorial Park. It was the fifth win without a defeat for the Mountaineers.

The Mountaineers trailed from early in the first quarter until the

deciding touchdown midway in the last period, in a game that featured bone-crushing tackling, four fumbles and a total of 70 yards in penalties.

Bangor received the opening kickoff and fumbled the ball when tackled and the visiting eleven recovered. Leon Marable fumbled for Stroudsburg on the first running play and Bangor fell on the ball.

The Slayers were apparently the first club to get over the opening jitters, and the charges of Coach Granville Evans forced Stroudsburg back to its own four yard line, from where Karl Weingartner kicked and Jack Finelli returned the ball to the Stroudsburg 37.

Finelli went to the 34, a Stroudsburg penalty moved the pigskin to the 29 and Rodney Miller went off tackle to the 25. Mike DeVito blasted to the 16 and then to the 14. Finelli swept to the six, Rodney Miller went to the four and then the one foot-line. Stroudsburg held here for two downs, but Rodney Miller crashed over for the Slayers touchdown. Ed Mugavero added the extra point from placement.

Stroudsburg struck back like a wounded animal in the early moments of the second period when Weingartner, behind some brilliant blocking, twisted, turned and raced 48 yards for a touchdown, as the Stroudsburg fans screamed their pleasure. A line back for the extra point by Don Garaventi failed to add the tying marker and Bangor led 7-6.

Stroudsburg had the better of the running game through the remainder of the second period, but the Bangor forward wall always had enough in reserve to halt the Mountaineers when the chips were down. The same was true in the early portion of the third period, but the Mountaineers received a terrific lift when Russ Bachman, who played brilliantly at end all night, blocked a kick on the Bangor 28.

But, once again the Bangor defense refused to give and Ralph "Barney" Stenlake pounced on another fumble.

The third period passed into history and the early portion of the final quarter found Bangor in possession of the ball. The Slayers finally punted to the Stroudsburg 42. Weingartner threw to Garaventi on a 40-yard pass play, but the entire play was recalled because of a clipping penalty.

Weingartner came back for three yards, the Stroudsburg quarterback then hit Benny Miller on a 20-yard pass play. Miller slashed off tackle for five yards and just as he was being tackled lateraled to Garaventi who raced to the Bangor 23, although he was leg-weary from the beginning of the final period.

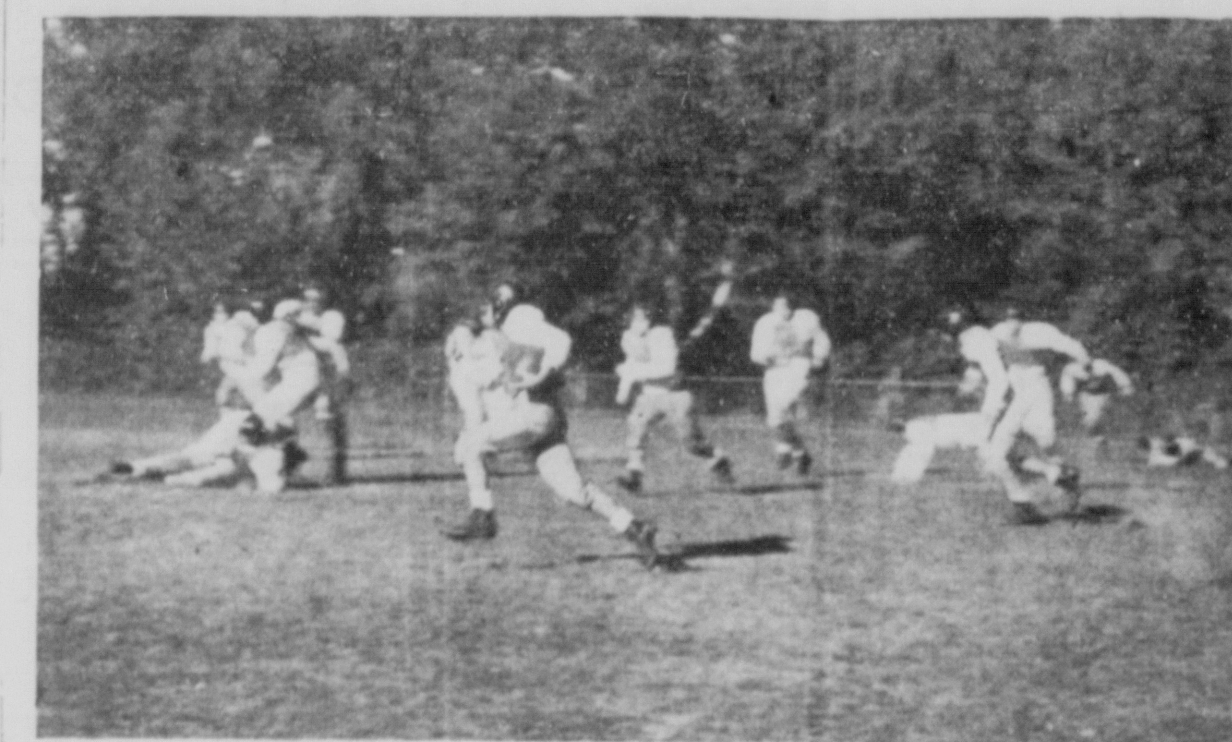

Don came right back with a four-yard burst and then Weingartner pitched to Dave Nevil on the two-yard stripe. Leon Marable, only recently promoted to a starting position, split the center of the Bangor line and went over for the touchdown. Weingartner calmly added the extra point from placement.

Bangor filled the air with passes in the late stages and stopped the Mountaineers cold the only time the visiting team had the ball in the late stages.

The Slayers fought right down to the final whistle, as Dale LaBar hit Finelli, a brilliant running back, with a pass good for 22 yards, as the final whistle sounded. Finelli threatened to outrun the entire Stroudsburg team at one time on the last play of the game.

Stroudsburg held an 8-7 edge in first downs, Bangor made five first downs in the opening period. Stroudsburg held a decided edge on both the ground and aerial routes, as the big Stroudsburg forward wall bottled up the fleet Bangor backs after the opening period.

The loss was the second straight for Bangor, as the Slayers dropped another one touchdown decision to Wilson Borough last Friday night, 6-0. The Slayers won their first three trips to the post.

SPECD—Two teams of East Stroudsburg State Teachers College gridders are pictured above going through a drill in preparation for today's clash with Mansfield, on the latter's home field. The Warriors will be seeking their second win of the season in today's clash, to go with the same number of setbacks.

## Shoemaker Boots Two Mounts Home To Set New Jockey Marks

Albany, Calif. (AP)—Wee Willie Shoemaker, the Texas-born turf terror, rode his 391st winner of the year at Golden Gate Fields yesterday for a new world record—and then pushed his new mark up another rung with his 392nd.

The 22-year-old jockey from El Paso galloped to racing immortality aboard a horse named The Hoop in Golden Gate's third race of the day.

He was out of the money in the next race, managed second place in the following three and then turned on the stretch heat to bring in Carry Message for a length and a half \$900 win in the eighth and last start of the day.

A crowd of 7,552 gave "Silent Shoe" a tremendous ovation as he guided The Hoop into the winner's circle.

It was his second rousing reception in two days. He tied the former mark of 390 Thursday after riding 12 losers.

Tony DeSpirito, 17-year-old star of Lawrence, Mass., set the old record last year.

The record-setting occasion took place in the third race today. The time for the six furlongs was 1:10 4-5. The winner paid \$1.10, \$3.10 and \$2.50 on \$2 mutuels.

The Hoop, incidentally, was trained by R. H. McDaniel, currently the leading trainer, in victories, in the United States and national champion conditioner last year.

McDaniel and Shoemaker now make their homes in Archdale, Calif.

For his achievement, Shoemaker was presented with a large silver trophy by Charles Coughlin, general manager of Golden Gate Fields.

Louisville, Ky. (AP)—Instead of sticking by his telephone to await a possible call from Brooklyn, "Pee Wee" Reese kept a golf date yesterday.

## Boston College Wins

New York (AP)—A tiny all-purpose halfback named Dick "Zigzag" Zotti ran 55 yards for one touchdown, punched for another, kicked two extra points and intercepted an enemy pass on the goal line last night to lead Boston College to an upset 20-13 victory over Fordham at the Polo Grounds.

## West Virginia Wins

Washington (AP)—Thwarted by a stubborn George Washington line, unbeaten West Virginia went to the air last night to earn a grudging 27-6 decision in a Southern Conference football battle at Griffith Stadium.

## Gavilan Agrees To Chicago

Chicago (AP)—Welterweight Champion "Kid" Gavilan, although worried about a "home town" decision yesterday agreed to defend his title against Chicago's Johnny Bratton at the Chicago Stadium Friday night, November 13. The bout will be telecast nationally with the Chicago area blacked out.

The bout previously was set for November 6 at either New York or Chicago.

The agreement was announced by James D. Norris, president of the International Boxing Club, who had to talk long and hard to

## ESSTC Grid Squad Invades Mansfield

East Stroudsburg State Teachers College will attempt to even its current football record at two wins and the same number of setbacks today when the Warriors battle Mansfield Teachers, at Mansfield. The kickoff is scheduled for 2 p. m.

The Warriors, plagued by a long list of injuries, opened the season with a 31-0 victory over Millersville, but then suffered successive losses at the hands of King's College and Shippensburg, by scores of 13-0 and 20-0 respectively.

ESSTC was so badly crippled when the squad departed from Normal Hill yesterday that head coach Gene Martin wouldn't even hazard a guess at his starting line-up.

"I'll wait until just before game time to name the starting eleven, at which time a final check will reveal which of my men can and cannot play against Mansfield," Martin announced as he boarded the bus for Mansfield.

The squad left the ESSTC campus at 5:30 p. m. yesterday, following a light workout, and spent the night in Tawanda. The Warriors arrived in Mansfield this morning.

Harry Steever, highly regarded back, was the latest member of the ESSTC grid machine to join the injured list, as he came up with a sore heel.

Dennis Roth, another back, who was hurt during an early week drill was back in action Thursday and is expected to see action today.

Others on the injured list are Warren Hoeffner, back; Ted Murray, back; Lew Judy, end; Dick Schell, guard; Don Toth, back; Bill Hibbs, end; Jim Revello, guard; Carmen "Muss" Martucci, tackle; Larry Klick, end and Clyde "Specs" Sweigart, a guard.

The Warriors clash with West Chester next Saturday, on the Normal Hill field.

## Winners

Advancing with her in the upper bracket was Betty Jameson of San Antonio, who disposed of Mrs. H. C. Riedel, Dallas, five and four.

In the lower bracket it was Fort Worth's Polly Riley, who shared the medal with Mrs. Zaharias, over Mrs. H. T. Williford, Ponca City, Okla., five and four, and Betty MacKinnon, Mt. Pleasant, Texas, over Beverly Hanson of Pasadena, Calif., three and two.

## Irish, Michigan State Fill Favorite's Role

By Will Grimsley

New York, (AP)—Notre Dame, freshened by a week's lay-off, and Michigan State, which hasn't got its power plant going full blast, are favored to hold their dominant positions in the national college football rankings with one-sided victories.

Top-placed Notre Dame opens its home season at South Bend against Pittsburgh, a big, raw team which upset the Irish a year ago, 22-19. But with Johnny Latner's ankle fully healed, Frank Leahy's men are not expected to have the same troubles again and rule a firm 20-point choice.

Michigan State, defending national titleholder and number two behind the Irish in the latest Associated Press poll, also rates a 20-point edge over Indiana in a Big Ten game at East Lansing, Mich. The Spartans are going after their 28th straight victory, longest winning skein in major college ranks.

## Not Smooth

But the sailing isn't as smooth for all of the ranking elevens and one of them, Illinois number nine, can count on an extremely busy afternoon against unpredictable Minnesota in their conflict at Champaign, Ill.

The Illini, who have vaulted Ohio State a 41-20 shellacking last week, are a six-point favorite but the Gophers, who seemed finally to find themselves in whipping Northwestern 30-13, may spring a victory to add further confusion to the talent-loaded Big Ten.

Among the other top-ranking teams, Maryland, number three, is a two touchdown favorite over North Carolina at Chapel Hill, N. C.; UCLA, number four and favorite for the Pacific Coast's Rose Bowl spot, is a 13-point pick over Stanford at Palo Alto, Calif., and Michigan, number five, rates the same edge over Northwestern in their conference test at Ann Arbor.

Dixie's two prime contenders for national honors — sixth - ranked Duke — have assignments which should force their strictest application while the number eight team, Baylor ought to win easily.

Georgia Tech, which has gone through 30 games without a defeat, engages an Auburn eleven which in its last two outings beat Mississippi and tied Mississippi State. Tech is a squeamish 13-point favorite.

## Duke

Duke brings its ponderous, hard-hitting line and brilliant quarterback, Jerry Barger, to New York's Polo Grounds for a date with still-rebuilding Army. The experts figure the Southerners 10 points better but there's an upset fever in the Army camp with the return of Fred Atkaya and the passing improvement of Pete Vann.

The nationally televised attraction is the game at neutral Birmingham, Ala., between Alabama and Tennessee, two of the South's perennial powerhouse who have fallen upon leaner days. Tennessee lost its first two games while Alabama, picked to be a national leader, bowed to little Mississippi Southern and tied LSU before winning its last two assignments. Game time is 3 p. m.

In the east, where the sport was born, Yale and Cornell clash at Ithaca, N. Y., in the Ivy League's headliner. Columbia plays Harvard, Colgate meets Dartmouth and Penn State takes on Syracuse.

## East Stroudsburg's Crippled Grid Squad Invades Morrisville

An injury riddled East Stroudsburg High school football team will attempt to land its fifth victory in six outings tonight when the Cavaliers tangle with Morrisville, on the latter's home field. The kickoff is scheduled to take place at 8:15 p.m.

Morrisville will be seeking revenge for last season's 26-6 loss at the hands of the Cavaliers at Memorial Stadium.

Coach Jack Kist faces the task of placing a team on the field for the Morrisville encounter, as no less than six regulars are on the sidelines with injuries, all of whom probably won't see any action. If any of the invalids do get into the game it will be for only a limited amount of play.

Mike Palmisano, Nick Patella and Bill Dimmick, all guards; Jack Anthony and Don Herman, both ends, and Harold White, a back, are the front line gridders who are hobbled by injuries at the present time.

Kist announced last night that his starting line against Morrisville will feature Jim Kimler, a

sophomore, at left end; John Verwey, left tackle; Fred Severud, a senior starting his first game, at left guard; Bob "Boo-er" Miller, center; John Shaffer, right guard; Roger "Red" Hartmann, right tackle, and Dick Zukowski, right end.

The Cavaliers will feature a familiar backfield of Joe Chase, quarterback; Stan Boorstein, left half; Bernie Fish, right half, and Bob "Red" Kupiszewski, fullback.

East Stroudsburg will be hard hit for substitutions and the Cavaliers in the starting lineup for the most part will have to go all the way.

The Cavaliers have scored victories over Hellertown, 40-0; Shattuck, 19-6; Pen Argyl, 26-0, and Lehigh, 13-7, while the single loss was administered by Bangor, 20-0.

After tonight's encounter the Eastburg football squad rests until next Friday, when a powerful Wilson Borough club, favored by many to win the Lehigh-Northern League title, invades Memorial Stadium.

## Perez Continues Ring Streak By Stopping Cam In Eighth

New York, (AP)—Flashy Lulu Perez, 20-year-old Brooklyn featherweight, won his 23rd straight fight last night by knocking out Joey Cam of Boston with a long right hand punch in 48 seconds of the eighth round at St. Nicholas Arena. Perez weighed 127½, Cam 128½.

## Baltimore Job News To Harris

Washington (AP)—"Bucky" Harris said last night that if the Baltimore Orioles have decided on him as their general manager, "It's strictly news to me."

Harris, who now holds down the job of manager of the Washington Senators, returned from a two-day fishing trip and read for the first time a published account that the Orioles had settled on Harris as their general manager.

## No Idea

"I don't know where they dig these stories up," Harris said. "No one from the Baltimore club has even spoken to me."

Harris wouldn't say whether he'd accept if the Orioles made him an offer.

## Dressen Officially Quits Brooklyn To Become New Part Owner, Field General Of Oakland

By Joe Reichler  
Brooklyn (AP) — Charlie Dressen yesterday officially surrendered the managerial reins of the National League champion Brooklyn Dodgers to pilot the Pacific Coast League Oakland club.

The announcement of the switch, made jointly by Dressen and E. J. "Bazzie" Bavasi, vice president of the Dodgers, came with startling suddenness although it had become quite evident during the past few days that Dressen was through in Brooklyn.

"I am very happy about it," Dressen said.

The 54-year-old pilot made the statement with a straight face but it did not quite explain his preference for a minor league job over that of managing a major

league team that he himself said "should win the pennant next year easy."

Even the disclosure that he would be a part owner of the club and would be working for his old friend, Oakland owner Clarence "Buck" Laws, was not regarded as a conclusive explanation.

"Honest," Dressen said, "I'm pleased as heck. I'm going to make more money managing Oakland next year than I would have managing Brooklyn."

"I realize what people will be saying. What's the matter with that guy? Is he crazy? Imagine turning down a big league job for \$10,000 to move to Oakland! But I'm sure I'll be happier on the Coast. Laws is one of the finest persons in the world. He told me I can stay with him as long

as I want to."

In Oakland, Laws confirmed that Dressen could stay with his club as long as Charlie wanted to.

"We met Charlie's terms," he said. "I don't mind saying they are high, but I think he is worth it."

Dressen, who managed Oakland to a pennant prior to joining the Dodgers in 1951, succeeded Augie Galan, also a former Dodger. He intends to leave for the Coast early next week following his wife's discharge from a Long Island hospital where she is being treated for an intestinal disorder.

Laws did not say what Dressen's terms were, but they would have to be higher than the \$10,000 Dressen was offered by the Dodgers to substantiate Charlie's statement.

## Governors Tell President Of Cooperative Plan To Cope With Drought Problem

Ahlene, Kan., (AP)—President Eisenhower took time out from his Western farm state tour yesterday to relive old memories at his boyhood home here.

It was his first trip back to his old home town since he was elected President and the warmth of the folksy greetings brightened his broad smile. He gave a quick kiss on the cheek to a high school sweetheart, Mrs. Gladys Brooks.

### Youth Center To Hold Dance

The Youth Center, located in the auditorium of the American Legion Post home, Washington St., East Stroudsburg, will hold a square dance tonight.

Dancing begins at 8:30; ends at 11:30. Games will be available from 7:30 on.

### Gilbert

Mrs. F. W. Deibert and Miss Emma Meltzer, visited the former's sister-in-law, Mrs. Emma Horn, who is a patient in the Graden Huettner Memorial Hospital, Lehigh.

and family and brothers, mother, grandmother and Mr. and Mrs. Correll of Kessleville.

Earlier the President had heard his philosophy on federal-state sharing of responsibility put into action in an agreement by drought state governors on emergency feed relief. It fitted in with a major plank in his administration policy—greater responsibility for local government.

He told the governors he was pleased with their action.

But the affairs of state were put aside for the quick trip home, sandwiched in on a tour which takes him next to Texas, then to a bridge dedication on the Texas-Mexican border Monday.

All along his route from Smoky Hill Air Force base, 25 miles away, crowds of waving, handclapping Kansans—many displaying flags and pictures of the President—told him he was welcome home.

Thirty-two bands in brilliantly colored uniforms swelled the crowd at Salina, where the air base is located, and strains of "Hail to the Chief" followed the President almost every mile of his motor trip.

The climax of the visit was Eisenhower's stroll through his old Ahlene home, the house "on the wrong side of the railroad tracks" where he and his brothers—a ramunctious family, by all accounts—grew to young manhood.

Eisenhower was plainly delighted to find the old homestead just as he remembered it.

When the home town visit was over, the President headed back to his official duties, including the dedication of a new livestock building and the horse show opening the American Royal Livestock Exposition at Kansas City. He arrived there at 3:06 p. m.
